## Introduction

Founded on the 30<sup>th</sup> of September 2022, inspired by the Japanese philosophy of “continuous improvement” (Kaizen), taking small steps forward or small changes will lead to bigger improvements.

KaizenTec Pty Ltd set out itself to be a player in the e-commerce space assisting buyers in digital shopping and selling of goods across South Africa, our roots of personal computer sales date back to 2003, where our founder provided budget friendly computers to students and small businesses.

We are passionate about technology hence our core business is in the Information Technology & Communication (ITC) sector. We are equally passionate about consulting services such as custom-tailored software solutions.

The founder, Yadhira Dasram holds a National Diploma in Information Technology with 17 years of industry experience ranging from building of custom-built personal computers, Application Development, Support, Maintenance, Consulting Services and Process Automation.

## Mission Statement

KaizenTec’s mission is to:

- To provide affordable technology solutions
